**Co-Chairman Horman** called the meeting to order at 8:00 a.m.

**Co-Chairman Horman** explained trailer bills. Trailer bills follow policy bills with fiscal notes that have passed at least one body of the Legislature. If the policy bill fails to advance, the fiscal trailer bill will also fail to advance and will be pulled back to the committee.

**Ms. Jill Randolph**, Principal Analyst, LSO Budget & Policy Analysis, presented the trailer appropriation to **S 1097**. This bill establishes a new fund, which will provide the state match for the Medicaid Management Information System (MMIS). MMIS deals with claims and payments going through Medicaid.

The fiscal note of **S 1097** indicates a one-time cash transfer into this newly created fund of \$18,656,400. Due to the nature of the procurement process, this is a FY 2023 appropriation for immediate costs and a FY 2024 appropriation for the full costs of the four base modules of MMIS. This legislation preserves General Funds for future mandatory Medicaid MMIS procurement and installation requirements without requiring a separate request for funding. This legislation allows surplus General Funds to be retained in a dedicated fund, which may only be accessed by legislative appropriation and may only accept surplus funds generated through the Medicaid budget.
