## IDAPA 58 – DEPARTMENT OF ENVIRONMENTAL QUALITY

### 58.01.14 – RULES GOVERNING FEES FOR ENVIRONMENTAL OPERATING PERMITS, LICENSES, AND INSPECTION SERVICES

#### DOCKET NO. 58-0114-2401 (ZBR CHAPTER REWRITE, FEE RULE)

#### NOTICE OF RULEMAKING – PROPOSED RULE

**AUTHORITY:** In compliance with Section 67-5221(1), Idaho Code, notice is hereby given that this agency has initiated proposed rulemaking. This action is authorized by Sections 39-105, 39-107, 39-119, and 39-175C, Idaho Code.

**PUBLIC HEARING SCHEDULE:** No hearings have been scheduled. Pursuant to Section 67-5222(2), Idaho Code, a public hearing will be held if requested in writing by twenty-five (25) persons, a political subdivision, or an agency. Written requests for a hearing must be received by the undersigned on or before September 20, 2024. If no such written request is received, a public hearing will not be held. Three public meetings were held during the negotiated rulemaking process.

**DESCRIPTIVE SUMMARY:** DEQ initiated this rulemaking in compliance with [Executive Order No. 2020-01, Zero-Based Regulation \(EO 2020-01\)](#), issued by Governor Little on January 16, 2020. Pursuant to EO 2020-01, each rule chapter effective on June 30, 2020, shall be reviewed by the agency that promulgated the rule. The review will be conducted according to a schedule established by the Division of Financial Management, Office of the Governor (DFM), posted at [https://adminrules.idaho.gov/forms\\_menu.html](https://adminrules.idaho.gov/forms_menu.html). This is one of the DEQ rule chapters up for review in 2024. The goal of the rulemaking is to perform a critical and comprehensive review of the entire chapter in an attempt to reduce overall regulatory burden, streamline various provisions, and increase clarity and ease of use.

In this rulemaking, DEQ proposes the consolidation of environmental fees into one chapter in an effort to streamline access to fee schedules and to provide a single stop for the regulated community to view applicable fees. Phase one is consolidation of fees applicable to wastewater treatment facilities and includes the following proposals.

**New Section 170, IPDES and Reuse Permit Fee Schedule:** This proposal moves the IPDES permit fee schedule language currently in Section 110 of 58.01.25, Idaho Pollutant Discharge Elimination System Rules, to 58.01.14, Rules Governing Fees for Environmental Operating Permits, Licenses, and Inspection Services. Section 170 also includes a proposal for fees associated with DEQ's recycled water program. DEQ evaluated the current number of recycled water permits and the workload associated with providing permits and compliance assistance for these facilities and determined that a minor fee is necessary to offset the costs to the state associated with this effort. During negotiated rulemaking, DEQ presented three different fee schedule scenarios and requested stakeholder input. After consideration of meeting discussions and comments received, DEQ included the fixed annual cost scenario which takes into account the specific counts of each facility type, aiming to distribute the financial burden equitably while ensuring sufficient funding for program operations and development.

**Update Section 110, Subsurface Sewage Disposal:** This proposal lists fees intended as minimums for specific permit types - Subsurface Sewage Disposal System Permits, Subsurface Sewage Disposal System Pumper Permits, and Subsurface Sewage Disposal System Installer's Registration Permits.

The proposed rule text is in legislative format. Language the agency proposes to add is underlined. Language the agency proposes to delete is struck out. It is these additions and deletions to which public comment should be addressed. If adopted by the Idaho Board of Environmental Quality and approved by concurrent resolution of the 2025 Idaho State Legislature, the rule will become effective on July 1, 2025, unless otherwise specified in the concurrent resolution.

**FEE SUMMARY:** This proposed rule consolidates environmental fees into one chapter in an effort to streamline access to fee schedules and to provide a single stop for the regulated community to view applicable fees and includes: 1) moving the IPDES permit fee schedule language currently in Section 110 of 58.01.25, Idaho Pollutant Discharge Elimination System Rules, to 58.01.14, Rules Governing Fees for Environmental Operating Permits, Licenses, and Inspection Services; 2) fees associated with DEQ's recycled water program; and 3) an update that lists subsurface sewage disposal permit fees intended as minimums for specific permit types. The fees are authorized by Idaho Code §§ 39-119 and 39-175C.

**FISCAL IMPACT STATEMENT:** The following is a specific description, if applicable, of any negative fiscal impact on the state General Fund greater than ten thousand dollars (\$10,000) during the fiscal year resulting from this rulemaking: Not applicable.

**NEGOTIATED RULEMAKING:** Negotiated rulemaking was conducted pursuant to Section 67-5220, Idaho Code. On April 3, 2024, the Notice of Intent to Promulgate Rules – Zero-Based Regulation (ZBR) Negotiated Rulemaking was published in the Idaho Administrative Bulletin. At the conclusion of the negotiated rulemaking process, DEQ submitted the draft rule to the Division of Financial Management for review. DEQ formatted the draft for publication as a proposed rule and is now seeking public comment. The negotiated rulemaking record, which includes the negotiated rule drafts, documents distributed during the negotiated rulemaking process, and the negotiated rulemaking summary, is available at <https://www.deq.idaho.gov/public-information/laws-guidance-and-orders/rulemaking/environmental-fees-docket-no-58-0114-2401/>.

**INCORPORATION BY REFERENCE:** Pursuant to Section 67-5229(2)(a), Idaho Code, the following is a brief synopsis of why the materials cited are being incorporated by reference into this rule: Not applicable.

**IDAHO CODE SECTION 39-107D STATEMENT:** This rulemaking is administrative in nature and proposes to update long-standing administrative rules. The portion of the rule relating to IPDES permit fees does not regulate activities not regulated by the federal government, nor is it broader in scope or more stringent than federal regulations. The remaining portions of the proposed rule regulate activities not regulated by the federal government.

### STATEMENT OF ECONOMIC IMPACT/REASONABLE ESTIMATED COSTS

The IPDES Permit Fee Schedule, Idaho Code § 39-175C. Fees are unchanged from the previous year's fee rule.

Fee Category and Statutory Authority:

#### **IDAPA 58.01.14.110**

Subsurface Sewage Disposal System Permit Fees, Idaho Code § 39-119. Fees included in this chapter have been updated to reflect current charges associated with certain types of septic permits. DEQ contracts the implementation of this program to the seven Health Districts in Idaho. Each Health District, under statutory authority at Idaho Code § 39-414, determines the fees associated with permits to support the staff responsible for permit issuance and inspections. DEQ is memorializing in this rule some generic requirements that Health Districts use when establishing reasonable fees. If at some point in the future the Health Districts are no longer able to implement the program, DEQ would need to financially support taking on the responsibility to issue these permits. DEQ estimates there are over 6,000 permits issued each year requiring roughly 50 environmental health specialist (minimum 1 per county), 14 management/supervisory positions, and 14 administrative staff. To account for that level of staffing, the Health Districts cumulatively would need roughly \$7.8M annually in support.

#### **IDAPA 58.01.14.170**

Reuse Permit Fee Schedule, Idaho Code § 39-119. Fees included and new in this chapter, for recycled water or reuse permits, offset costs associated with the program.
