

STATEMENT OF PURPOSE

RS30819 / H0443

The Division of Occupational and Professional Licenses seeks to amend Idaho Code to allow for an exemption from licensure for subcontractors performing work on a project managed by a licensed public works contractor when the value of the subcontracted work is less than \$100,000. It also eliminates the category of Class D licensure. This proposed statutory change would help to align Idaho's licensing requirements with the current business climate and construction market.

FISCAL NOTE

The Division currently charges an initial license fee of \$50 and an annual fee of \$40 for Class D licenses. This would result in a loss of revenue to the Division. However, it would also likely result in a higher number of individuals applying for Class C licensure. Therefore, the impact to the Division would likely be minimal or no fiscal impact.
