

## STATEMENT OF PURPOSE

### RS31461C1 / S1391

This bill restores public charter school facility funds, which were inadvertently reduced by the passage of H. 292 in 2023. It sets minimum funding at \$400 per student. From FY 2021 to FY 2023, the per-student amount fluctuated between \$389 and \$422 per student. This is not intended to increase funding; it simply puts the schools in approximately the same positions they were in before. Additionally, it specifies that future virtual charter schools and school districts that authorize virtual charter schools are not eligible for these funds. It also provides that, if H. 521 passes, a school district that authorizes a virtual charter school and receives funding from the school modernization facilities fund, may not also receive these funds.

### FISCAL NOTE

For FY 2024, public charter schools facilities funding was appropriated during the first session of the 67th regular legislature (2023) at an amount of \$13,204,900. There are approximately 32,000 students in Idaho's public charter schools. If they have a 95% average daily attendance (which is high) then the anticipated cost would be \$12,160,000, which is less than the FY24 appropriated amount.
