

STATEMENT OF PURPOSE

RS32654 / H0407

This legislation amends the Community Infrastructure District (CID) Act to allow a district to be formed within a county with the approval of the county. Additionally, this legislation allows a CID for the purposes of financing for fire protection and emergency medical service. Such financing is limited to 5 years.

FISCAL NOTE

This legislation does not increase or decrease any state funds, and does not directly increase or decrease any city or county funds. If a CID is formed within a city or a county, there would be an increase in the CID's revenue equal to the amount of the assessment in the CID. This revenue would be used to pay the city, county, fire protection district, or emergency medical service district for fire protection or emergency medical services.
