

STATEMENT OF PURPOSE

RS33168 / HJM013

This Memorial requests Congress to support legislation to codify the United States Supreme Court decision in Sackett v Environmental Protection Agency, et al., 598 U.S. 651 (2023), concerning Waters of the United States (WOTUS). The decision found that the EPA and US Corps of Engineers exceeded their legal authority and the Court established a new standard for determining what is included in WOTUS and what is subject to federal jurisdiction. The Memorial also requests the EPA and USCOE follow the Court decision.

FISCAL NOTE

The Memorial will have no fiscal impact on the state general fund nor to any local government.
