

STATEMENT OF PURPOSE

RS32937 / S1223

This amendment addresses a change with water administration that arises when water right ownership records have not been updated by landowners. In such circumstances, the water district may accrue expenses related to title research and water ownership processes. This amendment authorizes members of a water district to adopt a resolution allowing the watermaster to pass these property-specific charges on to the landowner benefiting from the research.

FISCAL NOTE

Since this amendment involves a water district's right to assessment members for certain changes associated with water right record management, it will have no impact on the general fund.
