

STATEMENT OF PURPOSE

RS32844 / SJM106

Grazing leases or permits on federal land are a valuable property right and can be critical to the success of Idaho ranchers. A rancher should not have their grazing lease or permit be adversely impacted because they submitted a depredation claim regarding their livestock. This Memorial calls upon the federal government to adopt rules to ensure that depredation claims cannot be used as a basis for modifying or revising a federal grazing permit or lease.

FISCAL NOTE

This will have no impact on the State budget as it only requests that the federal government enact a rule regulating certain grazing permit decisions.
