

2/23/26

Madam Chair VanOrden and Members of the Senate Health and Welfare Committee,

The Idaho Midwifery Council is in support of H 639 to update our formulary. Our Current medication restrictions can delay care and create unnecessary risk for mothers and babies, especially in urgent situations. This bill supports safety by allowing trained midwives to use medications within their scope, training and standard of care.

Idaho families deserve safe maternity care—regardless of where they live or where they decide to deliver. Licensed Midwives play a vital role in meeting this need and must be equipped with the tools necessary to do their jobs effectively.

Please support H 639 with A Do Pass recommendation.

In much appreciation,

Lori Sabin
